Admin WCF

2015-10-29**Dear Members**

The Board decision dated 30.09.2015 has been reworded in the light of ambiguous phraseology: The WCF is excellent equipped with WCF judges specially trained in our system. Therefore no further judges permissions will be issued for judges who did not proceed their exams in the WCF. An apprenticeship at one of the WCC member associations will be treated equally like a WCF education. This Decision enters into force immediately and will be presented at the next General Assembly for voting.

The Board

Explanatory we would like to add: Judges of World Cat Congress member associations can be invited as usual.

They are treated in the show-licensing like WCF judges as long as no individual decision of the board and the judge

Commission against such licensing exists. Non WCC judges may continue to be licensed with verification by the judges' commission and special permission by the Board for show-licenses.
